

Your one-stop partner for 

# SAP Commerce Cloud Migration

# If your organization is looking for a partner, who can seamlessly and cost effectively migrate your enterprise online Hybris store from SAP data center or Amazon Web Services into Azure based SAP Commerce Cloud, don't look further.

Introducing **ProCustomerX Migration** powered by **eProSoft**, a SAP services partner, which will super-charge and accelerate your existing Hybris platform to the new SAP Commerce Cloud.

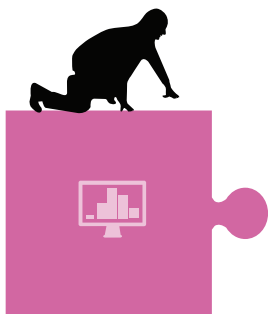

ProCustoerX delivers an integrated 360-degree cloudification approach that combines business, platform and application migration into Cloud. Migration is an art of looking for things that can go wrong and mitigate to have minimal or zero business impact (especially around peak shopping season).

## We offer following key ingredients to make your migration, a painless journey with our partnership:

# Our SAP Commerce Cloud Migration Services

**Cloud Assessment & Advisory Services**

**Implementation of SAP Cloud Migration Services**

**Cloud Migration Management Services**

**Process Reengineering and WebOps Training**

## Why ProCustomerX and eProSoft ?

We provide end-to-end capabilities that help enterprises with agility and speed to migrate to Cloud and raise the bottom line exponentially. We deliver value to our customers much beyond technical or application migrations.

Speed to value

Reliability and security

Cost reduction

Business agility

**The time is NOW! Plan your SAP move to the NEW Azure based SAP Commerce Cloud now with eProSoft's ProCustomerX**
